Cape Town Convention Compliance Index

The Cape Town Convention Compliance Index (the **Index**) is prepared by the Aviation Working Group to:

1. monitor and assess the implementation and application of the Cape Town Convention and its Aircraft Protocol (collectively, **CTC**) in countries that have ratified CTC (**contracting states**);
2. provide indicative assessments of future compliance with CTC;
3. incentivize compliance by providing timely, accurate, and transparent information to stakeholders; and
4. provide objective legal risk assessment, which can be used in the transactional context.

Detailed methodology for the Index's formula and analytical process can be found (methodology for score, formula can be found [here](#) .

Note on the interpretation of watchlist notices issued on the Index can be found [here](#) .
